Objective

I am a Software Engineer Student who is very passionate about AI. I would like To work in an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately.

Experience

- **APM TERMINALS**   01/07/2021 - 30/07/2021
  Summer internship
  Develop scheduling And maintenance web app

Education

- **CPGE Moulay Hassan**
  Mathematics And Physics   2020
- **School Of computer science (ENSIAS)**
  Software Engineering   2023

Skills

- Python
- Data science
- Deep Learning/Machine Learning
- Time series analysis
- Data analysis
- Problems solving

Projects

- **Card Fraud Detection with Bert**
  The idea was to convert all numerical values for each row into one String,then use bert to classifie it as if it is Faud or not.
  Technologies used:
  -pandas
  -bert

- **Deep convolutional generative adversarial network**
  I Trained a Deep convolutional generative adversarial network to generate fake faces images.
  Technologies used:
  - Tensorflow
  - opencv

- **Voice commands&google sheets Api**
  Develop a python app which takes voice commands and fill the excel sheet using Google sheets Api.
  Technologies used:
  - Deep Speech Library .
  -Google sheets Api.

- **Trading Agent**
  Develop a python app that predict the best Move to take(sell or buy or nothing).
  Technologies used:
  -Tensortrade.

Language

- English
- French
- Arabic

Personal Details

- Date of Birth   : 11 Mai 2000
- Marital Status : Single
- Nationality   : Morocco
